Review about business cooperation with RADIAN d.o.o.

In cooperation with RADIAN d.o.o., WTC Dunajska 156, 1000 Ljubljana, our company TH MINING AG was fully satisfied with the whole work process and the final result – highly professional designed webpage, business cards and other marketing material the company RADIAN d.o.o. has designed. They offered us a professional advice and support providing their new ideas how to optimize our webpage and other marketing products. They were opened and flexible to our ideas as well. They have stucked to agreed deadlines and have efficiently designed final products. Our company highly recommends a business cooperation with RADIAN d.o.o. because of their adaptability, reliability as well as professional design and consultancy.

Sincerely,

Thomas Hölscher
President and CEO
